Everlastic Acrylic Crack Sealant
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations
Date of issue: 04/28/2015-Version: 1.01

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Product form: Mixture
Trade name: Everlastic Acrylic Crack Sealant
Product code: 13100

1.2. Relevant identified uses of the substance or mixture and uses advised against
Use of the substance/mixture: Cold Pour Crack Filler

1.3. Details of the supplier of the safety data sheet
The Brewer Company
1354 US Hwy 50
Milford, OH 45150
T General 800-394-0017 - F 513-576-1414
www.thebrewerco.com

1.4. Emergency telephone number
Emergency number: 800-424-9300 CHEMTREC 24 HOURS

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
GHS-US classification
Carc. 1B H350
Full text of H-phrases: see section 16

2.2. Label elements
GHS-US labelling
Hazard pictograms (GHS-US):

Signal word (GHS-US): Danger
Hazard statements (GHS-US):
P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P280 - Wear eye protection, protective clothing, protective gloves
P308+P333 - If exposed or concerned: Get medical advice/attention
P405 - Store locked up
P501 - Dispose of contents/container to in accordance with local, regional, and national regulations.

2.3. Other hazards
No additional information available

2.4. Unknown acute toxicity (GHS-US)
Not applicable

SECTION 3: Composition/information on ingredients

3.1. Substance
Not applicable

3.2. Mixture
Section 4: First Aid Measures

4.1. Description of First Aid Measures

First-aid measures general:
IF exposed or concerned: Get medical advice/attention. Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid measures after inhalation:
Not expected to be an inhalation hazard. Allow victim to breathe fresh air. Remove person to fresh air and keep comfortable for breathing.

First-aid measures after skin contact:
Wash skin with plenty of water. Take off contaminated clothing. If skin irritation or rash occurs: Get medical advice/attention. Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse.

First-aid measures after eye contact:
Rinse eyes with water as a precaution. Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persist.

First-aid measures after ingestion:
Immediately call a POISON CENTER or doctor/physician. Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.

4.2. Most Important Symptoms and Effects, Both Acute and Delayed

No additional information available.

4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed

No additional information available.

Section 5: Firefighting Measures

5.1. Extinguishing Media

Unsuitable extinguishing media: Do not use a heavy water stream.

5.2. Special Hazards Arising from the Substance or Mixture

Fire hazard:
Not flammable in liquid state.

Explosion hazard:
Product is not explosive.

Reactivity:
Product is stable.

5.3. Advice for Firefighters

Firefighting instructions:
Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.

Protection during firefighting:
Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing. Do not enter fire area without proper protective equipment, including respiratory protection.

Section 6: Accidental Release Measures

6.1. Personal Precautions, Protective Equipment and Emergency Procedures

General measures:
Absorb spillage to prevent material damage.

6.1.1. For Non-Emergency Personnel

Emergency procedures:
Evacuate unnecessary personnel.

6.1.2. For Emergency Responders

Protective equipment:
Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection." Equip cleanup crew with proper protection.

Emergency procedures:
Ventilate area.

6.2. Environmental Precautions

Avoid release to the environment. Notify authorities if product enters sewers or public waters. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.
Everlastic Acrylic Crack Sealant
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

6.3. Methods and material for containment and cleaning up
Methods for cleaning up: Take up liquid spill into absorbent material. Notify authorities if product enters sewers or public waters. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials.

Other information: Dispose of materials or solid residues at an authorized site.

6.4. Reference to other sections
For further information refer to section 13. See Heading 8. Exposure controls and personal protection.

SECTION 7: Handling and storage
7.1. Precautions for safe handling
Precautions for safe handling: Wear personal protective equipment. Avoid contact with skin and eyes. Avoid breathing vapours. Ensure good ventilation. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapour. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

Hygiene measures: Separate working clothes from town clothes. Launder separately. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Store locked up. Store in a well-ventilated place. Keep cool. Keep only in the original container in a cool, well ventilated place away from heat sources. Keep container closed when not in use.

Incompatible products: Strong bases. Strong acids.

Incompatible materials: Avoid contact with strong oxidizers. Sources of ignition. Direct sunlight.

7.3. Specific end use(s)
No additional information available

SECTION 8: Exposure controls/personal protection
8.1. Control parameters

8.2. Exposure controls
Appropriate engineering controls: Ensure good ventilation.

Personal protective equipment: Gloves. Safety glasses. Avoid all unnecessary exposure.

Hand protection: protective gloves. Wear protective gloves.

Eye protection: Safety glasses. Chemical goggles or safety glasses.

Skin and body protection: Wear suitable protective clothing.

Respiratory protection: Wear respiratory protection. Wear appropriate mask.

Environmental exposure controls: Avoid release to the environment.

SECTION 10: Stability and reactivity

10.1. Reactivity
Product is stable.

10.2. Chemical stability
Stable under normal conditions.

10.3. Possibility of hazardous reactions
Refer to section 10.1 on Reactivity.

10.4. Conditions to avoid
Refer to Section 10 on Incompatible Materials. Direct sunlight. Extremely high or low temperatures.

10.5. Incompatible materials

10.6. Hazardous decomposition products

<tbody>
<tr>
<td>IARC group</td>
<td>2B - Possibly carcinogenic to humans</td>
</tr>
</tbody>
</table>

- **Reproductive toxicity:** Not classified
- **Specific target organ toxicity (single exposure):** Not classified
- **Specific target organ toxicity (repeated exposure):** Not classified
- **Aspiration hazard:** Not classified
- **Potential adverse human health effects and symptoms:** Based on available data, the classification criteria are not met.

### SECTION 12: Ecological information

#### 12.1. Toxicity

- **Ecology - general:** This product may cause adverse enviromental effects if used improperly or released to the enviroment through a spill. Employ best management practices to prevent this material rom entering storm sewers systems, waterways or otherwise impacting plant adn animal species.

#### 12.2. Persistence and degradability

- **Everlastic Acrylic Crack Sealant**: Persistence and degradability Not established.

#### 12.3. Bioaccumulative potential

- **Everlastic Acrylic Crack Sealant**: Bioaccumulative potential Not established.

#### 12.4. Mobility in soil

No additional information available

#### 12.5. Other adverse effects

- **Effect on ozone layer:**
- **Effect on the global warming:** No known ecological damage caused by this product.
- **Other information:** Avoid release to the environment.

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

- **Waste treatment methods:** This product, when discarded or disposed of, is not specifically listed as a hazardous waste in federal regulations. It could be designated as hazardous waste according to state regulations. This product could also become a hazardous waste if it is mixed with or comes in contact with a hazardous waste. If such contact occurs, consult 40 CFR, to determine whether it is a hazardous waste.

- **Waste disposal recommendations:** Dispose in a safe manner in accordance with local/national regulations. Dispose of contents/container in accordance with all local, state, and national regulations.
Everlastic Acrylic Crack Sealant
Safety Data Sheet
according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Ecology - waste materials: Avoid release to the environment.

SECTION 14: Transport information
In accordance with DOT
Not regulated for transport

Additional information
Other information: Not classified as a hazardous material under HM-181.

ADR
No additional information available

Transport by sea
No additional information available

Air transport
No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

Everlastic Acrylic Crack Sealant
Not listed on the United States TSCA (Toxic Substances Control Act) inventory

<table>

NFPA health hazard : 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.

NFPA fire hazard : 0 - Materials that will not burn.

NFPA reactivity : 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.

HMS III Rating

Health : 1 Slight Hazard - Irritation or minor reversible injury possible

Flammability : 0 Minimal Hazard

Physical : 0 Minimal Hazard

Personal Protection : B
